

Leaves Shawl by Jenn Wisbeck

Quick to knit with just 500 yards of worsted weight yarn, this shawl is perfect for when you want a shawl without a super lacey look.

Blocky leaves twine down from the center, with simple repeatable leaf motifs making up most of the knitting. The shawl is knit from the top down. Garter stitch edges the shawl to prevent curling, and the simple edging on the bottom produces subtle points.

Pattern includes large full color easy to read charts.

Notes

How to Read the Charts

Odd rows are charted. For even numbered rows, knit 3, purl across to last 3, knit 3. This creates the garter stitch edge.

You might find it helpful to place stitch markers before the first and last 3 stitches to remind yourself to always knit the garter edge, as well as putting a maker on each side of the center stitch.

Charts unless otherwise noted are shown with only the first half of the shawl to the center stitch- which has a YO on each side.

Follow chart from right to left. When you get to the middle stitch work back from left to right (mirror image). Be sure to reverse the shaping- a K2tog becomes an SSK, an SSK becomes a K2tog on the second side so that both sides of the shawl will match.
